COVID-19 pandemic

Humanity needs leadership and solidarity to defeat the coronavirus

- The World Health Organization has classified the coronavirus outbreak as a **global health emergency**, and governments around the world are taking action to control the virus from spreading.
 - The illness caused by the virus, COVID-19, has claimed the lives of **tens of thousands around the globe** and has sickened hundreds of thousands of people in more than **100 countries**, including China, Italy, Spain, and the United States.
 - The incubation period for COVID-19 is thought to be within **14 days following exposure**, with most cases occurring approximately four to five days after exposure but there aren't enough ventilators.
 - Every day, people are losing jobs and income, with no way of knowing when normality will return. Small island nations, heavily dependent on tourism, have empty hotels and deserted beaches. The International Labour Organization estimates that **25 million jobs could be lost**.
